

## Bay Crossing Study Public Comments July 1, 2022 – July 31, 2022

DATE	MEDIUM	COMMENT
7/23/2022	Web	Crossing the Bay Solution- Has there been a study to consider a car ferry rather than a bridge to cross the Bay, a bit to the North? They use ferries to cross Lake Michigan and to get to New York. Why not Maryland? It would save \$, provide jobs, create revenue, reduce Bay Bridge traffic, and see people time. Look forward to your response.
7/25/2022	Email	Hello! While we could invest millions in a study to create a new bridge to cross the Bay, I was wondering if a car ferry option has been considered?  If constructed a bit to the North of the Bay Bridge, it would reduce traffic on the bridge, save \$, create revenue and jobs, and save people time by having this option. Plus, it shouldn't take as long to put into place.  A car ferry is used to get to New York and to cross Lake Michigan. Why not here? Look forward to hearing from you!
7/20/2022	Web	Once again whoever is in charge of the bay bridge needs to be fired. The state should have already begun building another bridge.
